

Hi, I'm Patricia

I'm a UX Technical Writer / Content Strategist based in Redmond, WA.

I'm passionate about creating content experiences that help people configure, use, and troubleshoot products. Relentlessly curious and fueled by strong coffee, I'm a word nerd who loves to explain complex concepts in simple language. I can spot ambiguities and logical inconsistencies from a mile away, and I get a kick out of style guides and know when to follow the rules and when to break them.
